**Message from the Chair**

Monday, February 28, at 11 am, in CSE 1242 and via Zoom.

Starting Prysm: Trends in Machine Learning & Deep Learning

Shelby Thomas will be sharing the ups and downs of starting his tech company, Prysm, on Monday, February 28, at 11 am, in CSE 1242 and via Zoom.

**CSE NEWS**

Shelby Thomas’ New Venture: Thomas has founded Prysm, a company that is creating a secure, private, and sustainable platform for the creation, transfer, and management of sensitive data. The company is backed by $110 million in venture capital.

New Meta Research Fellows: The fellowship will provide up to two years of funding to support full-time research. Kabir Nagrecha and Stewart Grant will present their research, learn about current work at Meta and receive tuition and fees for up to two years, as well as a $42,000 stipend.

CSE Fellowships: The CSE Fellows program provides opportunities for postdoctoral researchers. The program is designed to support the next generation of leaders in computer science and engineering. Applications for the new CSE Fellows are now open.

Deian Stefan Receives Sloan Fellowship: Stefan is being honored for his contributions to the field of computer science.

CSE Changemaker KC Claffy (PhD ’94): Claffy has been selected to join Intel’s Intel 2021 Outstanding Researchers. She is being honored for her contributions to the field of computer science.

**NOTEWORTHY**

**WE ARE CSE**

The road from Siliguri, a small town outside Darjeeling, India to UC San Diego’s Department of Computer Science and Engineering when she noticed a problem: internet measurement data for scientific research might not always be available.

CBS NEWS

Our Research: The team compared the completeness and consistency of the IRR and RPKI databases and studied the underlying causes of the inconsistencies to better understand how the ecosystem is evolving. This paper will be presented at the 2022 Passive and Active Measurement Conference (PAM).

**CENTER FOR NETWORKED SYSTEMS**

ILLIAD: HRI

Laurel Riek was also featured in the article, which explores the dynamics between RPKI and IRR.
