Hi,

I am writing to you as CSE’s new Chair. It is an honor to be a part of this dynamic community of students, faculty, and colleagues. I look forward to working with each of you to build on the strong foundation that CSE has built over the past 40 years.

CSE’s mission has always been to promote and advance research and education in computer science and engineering. We are committed to fostering an inclusive and diverse community that values the contributions of all individuals. We strive to ensure that our programs and activities are accessible to all and that everyone is treated with respect and dignity.

I am particularly excited about the recent announcement of a $2.8 million grant to study hidden biases in healthcare. This project is in collaboration with Mayo Clinic and is led by Associate Professor Nadir Weibel, head of the Human-Centered and Ubiquitous Computing Lab. The grant will allow us to bring together experts from academia and industry to explore new ways to identify and mitigate hidden biases in healthcare.

As we continue to grow and evolve, I invite you to share your ideas and feedback with us. If you have news, story ideas or comments to share with our CSE Communications Team, please send them to the email address below. For more news, you can follow us on LinkedIn.

Sincerely,

[Name]
CSE Chair
